1962

PUBLISHED BY
THE GRADUATING CLASS
AL-HIKMA UNIVERSITY
BAGHDAD, IRAQ

DEDICATION

On the morning of September 26, 1956, Al-Hikma's first group of Freshmen assembled in a classroom at Baghdad College in Sulaikh for their first lecture. The lecturer was a man whom they and succeeding Al-Hikma students would come to know and love, Rev. Joseph L. Ryan, S.J., Dean of the University.

Since that day, Al-Hikma has grown in many ways. The student body is much larger; there are many new faces among the faculty; and the University has moved from a building on the Baghdad College campus to its own spacious, well-equipped campus in Zafraniya.

In gratitude to the priest whose devoted and patient labor has contributed so much to this growth of Al-Hikma, and to our own individual spiritual and intellectual growth, we, the graduating class of 1962 take great pleasure in dedicating this yearbook to Fr. Ryan.

Roneo steel library shelving

There are two main types of Roneo Library Shelving: Bracket Shelving, for general book storage; and Slotted Upright Shelving, for use in reading and reference rooms.

BRACKET SHELVING

Shelves are of one-piece construction supported on pressed steel brackets engaging in slots in uprights.

Supports are of box section welded construction fully braced.

SLOTTED UPRIGHT SHELVING

Shelves are of one-piece construction engaging and locking in horizontal slots in uprights.

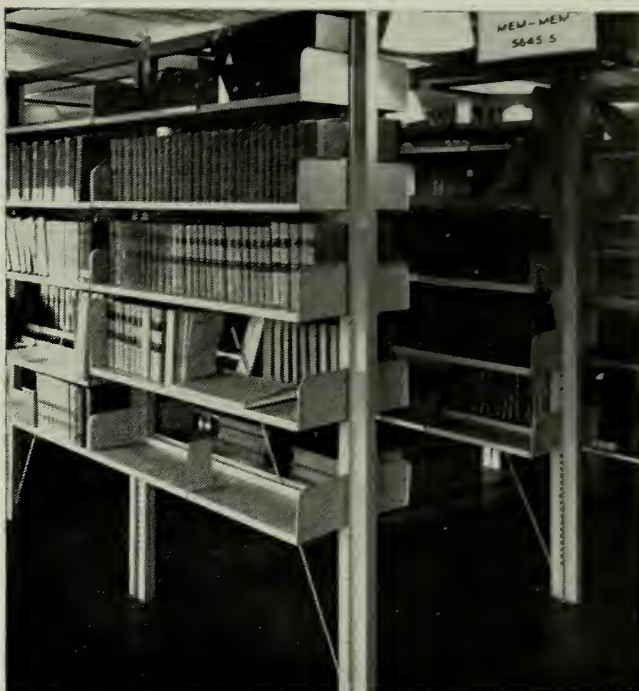

Supports are of double-wall construction specially shaped for rigidity with sheet steel backs.

FACTS COMMON TO BOTH TYPES

Intermediate Floors. When the shelving is multi-tier the intermediate decks are carried by the shelving uprights. These decks can be of concrete planks on steel framing members suitably finished on upper and lower surfaces. Alternatively, steel plank decking can be supplied.

Finish. Stove enamelled in a wide range of colours.

Roneo can also supply other forms of shelving including compact systems. They are equipped to handle the complete installation of a new library or the modernisation of an old one and can supply all ancillary equipment.

The Priceless Extra of Experience

Think for a moment of the many choices we make in life which are determined by our confidence in somebody's experience.

Choice in important things, like selecting a doctor, a lawyer, or a friendly advisor. In less important things, like having something repaired. In even minor, everyday, personal problems, where we want wise guidance.

So deeply ingrained is this basis for choice in all our actions, it comes as no surprise when so many experienced travelers say that this is why, when they fly overseas, they put their trust in Pan American.

For Pan American is "The World's

Most Experienced Airline"—in years of flying over the seven seas—in every type of transport plane—in fine mechanics who maintain these planes—in pilots and engineers who fly and navigate them—in services to care for you before you embark, while on your flight, and when you land. All under the high discipline of U. S. flight standards.

A Pan American traveler is a *confident* traveler, reposing his trust in these years of experience in getting you from here to there—comfortably, dependably, serenely.

It's a great experience *to fly with* experience on Pan American.
